

Universal Laptop Locks

Simplify Your Deployments

Simplify lock deployment and management with universally compatible device locks - available in keyed or combination options and convenient multi-packs.

Deployment Ready

Master Key/One Key and serialized combination options allow IT managers to protect valuable assets and simplify deployments without the worry of misplaced keys or forgotten combinations.

Durable Construction

Built for strength with a cut-resistant carbon steel cable and durable diecast zinc-alloy lock body. Rated for up to 350lbs / 158kg of pull force.

Thoughtful Design

Protective spacer that prevents damage to the laptop. Thin profile lock with a 90-degree elbow and 360-degree swivel to eliminate strain on ultra-slim devices.

Universal Compatibility for Worry-free Deployments

A unique on-the-fly lock tip mechanism makes it easy to adapt the lock tip to each device without having to replace the tip. StarTech.com locks are compatible with all major laptop brands and support the three most popular slot types (**K-Slot / T-Bar**, **Noble Wedge®** and **Nano**).

Lock Accessories

A broad range of accessories to safeguard your devices including:

- Cable Lock Anchors
- Lock Slot Adapter Kits
- Security Cable Tethers
