

Privacy Screen For Dell P3424WE Curved Ultrawide 21:9 Monitor, Double-Sided Filter Matte/Glossy, Computer Monitor Screen Protector, TAA-Compliant

**Product ID:** 34C29-PRIVACY-SCREEN

This privacy screen is designed for the curved 34-inch Dell P3424WE 21:9 ultrawide monitor, effectively obscuring sensitive on-screen information and ensuring that both the center and outer edges of the screen are shielded from unwanted views.

This privacy filter is a convenient and cost-effective solution to protect confidential data from unwanted viewers. The privacy shield obscures the computer's screen from the sides while providing an approximate viewing angle of 60 degrees (+/- 30 degrees from the center) to the user. The security shield also features blue light reduction, blocking between 40% to 51% of the blue light emitted from the display in the 380nm - 480nm wavelength range.

The privacy shield has a light transmittance of 65% providing optimal screen brightness and enhanced levels of privacy.

The privacy screen protector is double-sided, with a matte anti-glare side for environments prone to glare and a high-gloss side that helps retain color vibrancy. The matte side provides additional screen protection with a fingerprint and scratch-resistant coating.

Easily install the glossy or matte side of the privacy screen protector using the included adhesive strips; Optional mounting tabs are included for additional support on lower bezel.

## Certifications, Reports and Compatibility

## Applications

## Features

- **PROTECT SENSITIVE VISUAL DATA:** Privacy screen for the Dell P3424WE monitor features Microlouver technology that obscures the display when viewed from the sides to prevent visual eavesdropping; Approximate viewing angle of 60 (+/- 30 from the center)
- **DESIGNED FOR DELL P3424WE:** Privacy filter is custom designed for the Dell P3424WE 34-inch ultrawide monitor with a 21:9 aspect ratio; Filter dimensions 32x13.5in (81.3x34.3cm); The screen protector is TAA-compliant
- **REDUCE EYE STRAIN:** Computer monitor privacy screen blocks between 40% to 51% of blue light (380nm to 480nm spectrum) which helps reduce digital eye strain/improve visual comfort with prolonged use; Light transmittance of 65% for better screen readability
- **MATTE OR GLOSSY SIDES:** Privacy shield features an anti-glare matte side for environments prone to glare, and a high-gloss side that helps retain color vibrancy; Matte side features an additional coating to protect against scratches and fingerprints
- **HASSLE-FREE APPLICATION:** Easily install the glossy or matte side of the privacy screen protector using the included adhesive strips; Optional mounting tabs are included for additional support on lower bezel
