3ft (1m) DisplayPort to DVI Cable - 1080p Video - Active DisplayPort to DVI Adapter Cable - DisplayPort to DVI-D Cable Converter Single Link - DP 1.2 to DVI Monitor Cable

Product ID: DP2DVIMM3BS

The DP2DVIMM3BS 3ft active DisplayPort to DVI converter cable lets you connect your DisplayPort-equipped desktop or laptop directly to a nearby DVI monitor or projector, saving the expense of additional adapters while eliminating the clutter of excess cable.

For guaranteed compatibility with virtually any DisplayPort output the active DisplayPort to DVI adapter supports multimode (DP++) as well as single-mode DisplayPort signals. Unlike passive adapters, this ensures the DP2DVIMM3BS can be used with graphics cards that are not capable of outputting multimode DP++ signals, such as ATI Eyefinity cards.

Plus, because the converter cable supports video resolutions up to 1920x1200 you can convert a DisplayPort video source to DVI without sacrificing video quality.

The DP2DVIMM3BS is backed by a 3-year StarTech.com warranty and free lifetime technical support.

Note:

This adapter is not compatible for use with the Apple Cinema Display.
