Fiber Optic Cleaning Pen, MPO Fiber Cleaner for MPO/MTP-12 Connectors and Ports, Fiber Optic Cleaner Pen

Product ID: FOCPENMPO3

Ensure optimal performance with this practical fiber optic cleaning pen, designed for MPO/MTP-12 fiber connectors. It provides quick, effective cleaning for reliable signal quality in critical network environments.

This Fiber Optic Cleaning Pen effectively removes dust and particles to prevent contamination that can compromise connection reliability and signal quality. Because optical fiber is highly sensitive to contamination, keeping fiber ends clean is essential for maintaining consistent performance, especially in high-bandwidth connections where even minor particles can disrupt signal integrity.

Cleaning fiber connector ends is simple with the intuitive one-click mechanism. Each press advances the cleaning belt to wipe away contaminants from the connector end face, ensuring a fresh cleaning surface with every use.

This Optical Fiber Cleaning Pen is suited for fiber optic network maintenance, server racks, and data centers. Its compact, lightweight design is ideal for technicians working with high-density fiber setups, including patch panels and transceivers.
