

Dual TV Ceiling Mount - Back-to-Back Heavy Duty Hanging Dual Screen Mount with Adjustable Telescopic Pole - Tilt/Swivel/Rotate - VESA Bracket for 32"-75" Displays

Product ID: FPCEILBTB

Create impressive and effective digital signage with this ceiling TV mount, suspending two 32" to 75" TVs, back-to-back. Ideal for open spaces in retail, hospitality, restaurants and many other areas, the dual-screen mount provides a versatile way to inform customers, and doubles the audience viewing your content.

The dual-screen mount securely holds two flat-screen TVs back to back, in landscape position. The steel mount supports VESA mount displays up to 600 x 400 mm with a weight capacity of 110 lb. (50 kg) per display.

With a telescopic pole, the ceiling TV mount lets you suspend two displays at your desired distance from the ceiling, working with a range of ceiling heights. The pole-mount TV bracket can extend from 41.7" to 61.4" (1060 to 1560 mm) from the ceiling, with a total lift (height extension) of 19.7" (500 mm).

For optimum viewing, the mount lets you swivel the display 360 degrees around the pole. The free-tilting design lets you adjust the tilt angle +5/-20 degrees.

The dual-display mount accommodates a wide variety of ceiling types. Swivel the ceiling TV mount to work with virtually any type of ceiling for level viewing, including sloped ceilings (up to +/-60 degrees) or horizontal (flat) ceilings.

The ceiling mount provides a hook-and-mount design for easy setup. The wire-management channels keep cables concealed. The +/-3 degree post-installation leveling adjustments ensure ideal positioning after hanging.

FPCEILBTB is backed by a StarTech.com 5-year warranty and free lifetime technical support.

Certifications, Reports and Compatibility

Applications

- Set up back-to-back TVs in retail, healthcare, hospitality and other areas
- Keep your guests informed and entertained
- Ideal for digital signage, menu boards, and other applications
