

USB to USB-C Adapter with Power Delivery - USB-C to USB-A and USB-C - USB 3.0

Product ID: HB30C1A1CPD

Dock your USB-C laptop using a USB 3.0 Type-A laptop docking station, with additional support for Power Delivery. This USB to USB-C adapter lets you convert your USB 3.0 laptop docking station to connect a USB-C laptop, MacBook or MacBook Pro, and it adds laptop charging support, so you can keep your laptop powered and charged while it's docked, using your USB-C laptop's power adapter.

Enjoy the same workstation functionality you've grown accustomed to, without having to replace your USB 3.0 docking station with a USB-C dock. Connect the USB-C adapter to your laptop using the built-in USB-C cable, then use a USB 3.0 (Type-A) cable to connect from the adapter to your existing USB 3.0 docking station.

In addition, you can power and charge compatible USB-C laptops using a USB Type-C power adapter that connects through the USB-C port on the adapter. The adapter supports USB Power Delivery 2.0 up to 60W.

The adapter is also ideal for connecting legacy USB 3.0 devices, such as your existing external hard drive, to a newer USB-C laptop. Now, you can access your current devices and avoid the cost of upgrading to newer USB-C devices.

The power delivery option to charge a laptop can also be used in this configuration. Simply connect the adapter to a USB-C power adapter through the available USB-C port.

Extend the life of your current USB 3.0 devices and take advantage of newer devices that feature USB-C.

This USB 3.0 hub lets you expand your USB connection options using the USB-C port on your computer. It offers one USB-A port and one USB-C port, so you can connect traditional USB devices as well as newer USB-C devices to your USB-C laptop.

The HB30C1A1CPD is backed by a StarTech.com 2-year warranty and free lifetime technical support.

Certifications, Reports and Compatibility

Applications

- Carry the adapter with you while you're traveling, and connect virtually any USB peripheral wherever you go
- Perfect for home, office, hot-desk, BYOD (Bring Your Own Device), and CYOD (Choose Your Own Device) environments
- Connect your MacBook Pro, MacBook or other USB-C laptop to a USB 3.0 laptop docking station with Power Delivery support
- Connect legacy USB 3.0 devices to your USB-C laptop
- Power both the adapter and your laptop simultaneously, using your laptop's USB-C based power adapter
- Expand the connection options on your USB-C laptop by adding a USB-A port in addition to your USB-C port

Features

- Supports USB Power Delivery 2.0 (up to 60W) to power and charge your MacBook Pro or laptop, when coupled with the laptop's USB-C based power adapter
- A small-footprint design that's lightweight and compact, for maximum portability
- Universal, multi-platform compatible with fast, easy installation and native support in most operating systems (Windows, macOS, Chrome OS, Linux)
- Plug-and-play, and supports hot-swapping or hot-plugging
- Integrated cable features a small and reversible USB-C connector, and it's Thunderbolt 3 data port compatible
- Convert a USB 3.0 docking station into a USB-C laptop docking station
- Connect legacy USB 3.0 devices, like an external hard drive to your USB-C laptop

Hardware	Warranty	2 Years
	USB-C Device Port(s)	Yes
	USB-C Host Connection	Yes
	Ports	2
	Interface	USB 3.0
	Bus Type	USB 3.0
	Industry Standards	USB 3.0 - Backward compatible with USB 2.0 and 1.1
	Chipset ID	VIA/VLI - VL101 VIA/VLI - VL813
	Performance	Maximum Data Transfer Rate
	Type and Rate	USB 3.0 - 5 Gbit/s
	MTBF	477,750 hours
Connector(s)	Connector Type(s)	USB Type-C (24 pin) USB 3.0 (5Gbps)

	Connector Type(s)	USB Type-A (9 pin) USB 3.0 (5 Gbps)
	Connector Type(s)	USB Type-C (24 pin) USB 3.0 (5Gbps)
Software	OS Compatibility	OS Independent; No additional drivers or software required
Special Notes / Requirements	System and Cable Requirements	Available USB Type-C port - USB 3.0 (5Gbps) (to ensure the hub powers and charges you laptop, your host laptop's USB-C port must support USB Power Delivery 2.0)
	System and Cable Requirements	Optional: USB-C power adapter (for example, your laptop's USB-C based power adapter)
	Note	Not all USB-C ports support the full functionality of the USB Type-C standard. Ensure that your host laptop's USB-C port supports USB Power Delivery 2.0
	Note	The hub can connect to a host laptop's USB-C port that doesn't support USB Power Delivery 2.0. However, in this configuration if a power adapter is connected to the hub, it will not pass power through to your host laptop.
	Note	USB 3.0 is also known as USB 3.1 Gen 1; this connectivity standard offers speeds up to 5Gbps.
Power	Power Source	USB-Powered
	Power Delivery	60W
Environmental	Operating Temperature	0C to 70C (32F to 158F)
	Storage Temperature	-10C to 55C (14F to 131F)
	Humidity	40%~50%RH
Physical Characteristics	Color	Silver & Black
	Form Factor	Compact
	Material	Plastic
	Cable Length	9.8 in [2.5 cm]
	Product Length	11.5 in [2.9 cm]
	Product Width	1.7 in [43.500 mm]
	Product Height	0.4 in [10.500 mm]
	Weight of Product	0.8 oz [22.000 g]
Packaging Information	Package Length	1.2 in [30.000 mm]
	Package Width	6.7 in [1.7 cm]

Package Height	3.9 in [100.000 mm]
Shipping (Package) Weight	2.5 oz [72.000 g]

What's in the Box	Included in Package	USB 3.0 hub
	Included in Package	quick-start guide
