

10g Silicone Thermal CPU Paste Tube

Product ID: HEATGREASE10

This thermal paste can be used to improve the effectiveness of a CPU cooler by thermally bonding the CPU to the heatsink, allowing the heatsink and fan to work at their full capacity to remove harmful heat from the CPU.

Certifications, Reports and Compatibility

Applications

- Replace old or dried out thermal paste
- System builders who put together many low-end to mainstream systems

Features

- Ceramic-based compound containing silicon
- Thermal conductivity of more than 1.066W/m-K

Performance

Warranty	2 Years
Thermal Conductivity	>1.066 W/(m·K)
Thermal Resistance	<0.195C-m ² /W
Bleed	<0.05% at 200C/24 hours

Evaporation	<0.001% at 200C/24 hours
-------------	--------------------------

Specific Gravity	2.3
------------------	-----

Environmental

Operating Temperature	-20C to 100C (-4F to 212F)
-----------------------	----------------------------

Storage Temperature	-50C to 150C (-58F to 302F)
---------------------	-----------------------------

Humidity	10% ~ 80% RH
----------	--------------

Physical Characteristics

Color	White
-------	-------

Product Length	1.2 in [30 mm]
----------------	----------------

Product Width	2.8 in [72 mm]
---------------	----------------

Product Height	0.7 in [18 mm]
----------------	----------------

Weight of Product	0.5 oz [14 g]
-------------------	---------------

Packaging Information

Package Length	3.3 in [83 mm]
----------------	----------------

Package Width	0.9 in [22 mm]
---------------	----------------

Package Height	6.1 in [15.4 cm]
----------------	------------------

Shipping (Package) Weight	1.1 oz [30 g]
---------------------------	---------------

What's in the Box

Included in Package	Tube of Silicone Heat Grease Compound
---------------------	---------------------------------------
