

## HDMI Over IP Extender - 1080p

**Product ID:** IPUSB2HD3

This HDMI over IP extender lets you share an HDMI display or projector with the wireless or wired computer on your network. With intuitive controls and effortless screen sharing, this extender makes it easier than ever for users to collaborate and deliver presentations in boardrooms and office meetings.

The IP video extender supports resolutions up to 1080p and features two built-in USB ports, enabling you to connect remote USB devices to your computer from your display. It's the perfect solution for controlling a computer from wherever the adapter is located.

The IP video extender helps you boost your office productivity, by making it easier for users to collaborate and communicate. The included software lets you connect multiple computers and easily switch between which user is sharing their content with the HDMI display, unlike some wireless video systems that are difficult to configure and require users to disconnect and reconnect manually.

With this IP video extender, you can turn your HDMI television, monitor or projector into an IP display that can connect to any Windows computer on your network, making it perfect for conference rooms and classrooms where different ideas are shared by users who bring their own computers.

With a built-in USB hub, you can use your computer to access two remote USB devices at your remote display, enabling you or your customers to control the computer from the remote location. Remote operation can be used to create interactive digital signage, to engage your customers.

The IPUSB2HD3 is TAA compliant backed by a 2-year StarTech.com warranty with free lifetime technical support.

Note: This HDMI over IP video extender is intended for use on networks with dedicated bandwidth. See our FAQ for further details.

## Certifications, Reports and Compatibility

## Applications

- Enable your employees or co-workers to share each other's screens on a boardroom display
- Share information with clients at doctors offices and hospitals, while keeping the computer in a remote, secure location

## Features

- Collaborate with co-workers by using your network to easily switch between devices shown on a shared display
- Share video with a wireless or wired LAN connection using any Windows computer on your network
- Built-in 2-port USB hub
- Control the video-over-IP adapter, using the included software
- Supports resolutions up to 1080p

#### Connector(s)

Connector A	<p>1 - HDMI (19 pin)</p> <p>2 - USB 2.0 Type-A (4 pin, 480Mbps)</p>
Connector B	<p>1 - USB B (4 pin)</p> <p>1 - RJ-45</p>

#### Software

OS Compatibility	Windows 8, 7, Vista, XP
------------------	-------------------------

#### Power

Power Source	AC Adapter Included
Input Voltage	100 - 240 AC
Input Current	0.6 A
Output Voltage	5 DC
Output Current	2 A
Center Tip Polarity	Positive
Power Consumption (In Watts)	10

---

**Physical Characteristics**

Color	Black
Material	Aluminum
Product Length	4.0 in [10.2 cm]
Product Width	2.9 in [7.4 cm]
Product Height	0.9 in [2.4 cm]
Weight of Product	10.7 oz [304.0 g]

---

**Packaging Information**

Package Quantity	1
Package Length	5.6 in [14.3 cm]
Package Width	6.7 in [17.0 cm]
Package Height	2.6 in [6.6 cm]
Shipping (Package) Weight	1.5 lb [0.7 kg]

---

**What's in the Box**

Included in Package	1 - HDMI over IP extender
	1 - USB cable
	1 - CAT5 cable
	1 - universal power adapter (NA, EU, UK, ANZ)
	1 - mounting bracket
	1 - mounting screw kit
	1 - rubber foot set
	1 - quick start guide
