

6ft (1.8m) USB Multi-Charging Cable, USB-A to Lightning/USB-C/Micro-USB, Apple MFi Certified, Braided Nylon Jacket; USB 3-in-1 Charger Cable/Cord

Produkt-ID: LTCUB6GR

This USB multi-charging cable is a single-cable solution that makes it easy to charge and sync your Apple Lightning or Android devices.

Keep this USB to Micro-USB, USB-C or Lightning cable on hand for all your charging needs, instead of carrying multiple cables. The 3-in-1 cable makes it easy to switch between different device models and platforms. This cable can charge one device at a time.

Charge your devices from a USB wall charger, car charger, or power bank. The 6ft (1.8m) length enables greater reach, so you can access your device conveniently even while it's connected to a charger.

With a braided nylon jacket, this durable charging cable doesn't kink or tangle as easily as non-braided cables do. It's an excellent replacement for any of your charging cables.

To charge or sync a USB-C or Lightning mobile device, simply attach the corresponding connector to the Micro-USB connector and plug it into the device. To charge or sync over Micro-USB, plug just the middle connector of the cable into your mobile device. The charging cable facilitates one device at a time.

LTCUB6GR is Apple MFi certified for guaranteed compatibility and reliable performance with Apple devices.
