

## 1m Slim 3.5mm Stereo Extension Audio Cable - M/F

Product ID: MU1MMFS

The MU1MMFS 3.5mm headphone extension cable (1m) features a 3.5mm (1/8" TRS) male audio connector on one end and a 3.5mm (1/8" TRS) female audio connector on the other, making it easy to extend the reach of your headphones between your iPhone, MP3 player or other mobile audio devices and your stereo system.

To ensure long-lasting performance, this high quality headphone extension cord features molded PVC strain relief at each of the 1/8" TRS connectors, which prevents the cable termination points from bending at sharp angles, in turn reducing the risk of cable damage.

### Certifications, Reports and Compatibility

### Applications

- Extend the reach between your headphones and your mobile audio device or your stereo system
- Extend the connection between your mobile audio devices and a stereo system

### Features

- 3.5mm TRS mini-stereo connectors, with molded PVC strain relief
- 90% Spiral Wrapped Connector provides shielding against EMI and RFI interference
