Product ID: MXTHQMM5MA

The MXTHQMM5MA 5-meter High Resolution VGA Cable with Audio is a high quality SVGA cable designed to provide the highest video quality possible through VGA - a single cable solution for connecting both video between a VGA video card and monitor, and audio connections between a sound card and external audio device.

StarTech.com's high resolution VGA cable with audio features high quality male-to-male coaxial VGA cable, and is designed to eliminate picture "ghosting" and fuzzy images that are inherent to non-coaxial cables, while providing superior EMI interference protection by using ferrite cores near the connector ends.
