

3 Port PCI Express 12V PoweredUSB Adapter Card - USB PlusPower

Product ID: PEX312PUSB

The PEX312PUSB 3 Port PCI Express 12V PoweredUSB Adapter Card allows you to add three Powered USB (USB PlusPower) ports to any standard form-factor computer, using an available PCI Express Slot.

Drawing power from either the PCI Express slot or the computer power supply, the powered USB adapter card provides up to 3A of current to each connected device, allowing for up to three Powered USB devices to be installed at the same time.

Plus, the PCI Express Powered USB Adapter card can be connected to the corresponding accessory daughter board PUSBADAP (2 Port Low Profile 12V/24V Powered USB Adapter Card), to create two additional Powered USB ports, but does not require a second PCI Express slot.

Backed by a StarTech.com lifetime warranty and free lifetime technical support.
