1 Port 10/100 Mbps Parallel Network Print Server

Product ID: PM1115P

This 10/100 Mbps Print Server lets you connect a Parallel printer to your Fast Ethernet (10/100Mbps) network, allowing you to share the printer between many networked users, instead of having to purchase separate printers for each individual workstation.

The parallel print server can be installed in minutes and features remote web-based management for simple configuration. The print server features a small footprint design that saves valuable deskspace, and can be connected directly into the parallel printer Centronics port and connected to a Fast Ethernet network using standard network cable (RJ45 terminated).

Providing dependable parallel printer sharing, this 10/100Mbps Print Server is backed by StarTech.com's 2-year warranty.
