Refurbished 42U 42in Server Rack Cabinet

Product ID: RK4242BKR

"Refurbished cabinets may have minor scratches and dents"

The RK4242BKR Refurbished 42U 42in Server Rack Cabinet features an all steel, welded frame construction that provides durable, high quality rack storage at an affordable price.

This modular 42U cabinet helps save space in the server room by using an innovative split rear door, and is designed to suit any server room footprint design, while housing any standard 19in rackmount equipment.

To help optimize ventilation, the cabinet offers steel mesh doors with wide perforation, and includes an integrated cable management system that helps keep the inside of the cabinet neat. Plus, the rack rail spacing is clearly marked, making it easy to plan and install equipment within the cabinet.

Units include complete mounting hardware and accessories as intended with the original (non-refurbished) product, and are provided in the original packaging. Refurbished units may have small scratches in the paint on the metal casing, but all other components are as new. Backed by a 90-day replacement warranty.

Certifications, Reports and Compatibility

Applications

• Ideal for rack mount servers, KVM switches, networking equipment and cabinet consoles

Features

• Split rear door minimizes the required access space behind the cabinet

• Includes integrated cable management system, casters, leveling feet, mounting screws
