

Blank Panel for Server Racks - 1U

Product ID: RKPNTL1U

You can improve the appearance and airflow of any standard 19-inch server rack in seconds, using this 1U blanking panel. This TAA compliant product adheres to the requirements of the US Federal Trade Agreements Act (TAA), allowing government GSA Schedule purchases.

The blanking panel creates a clean and professional look by covering empty space and visible cables, for a more organized server room.

For fast and easy installation, this blanking panel features a tool-less design that latches onto a standard 19 in. server rack, saving you time and hassle.

The blanking panel features a solid design that helps guide airflow down the back of your rack, rather than passing through unused spaces. Improved airflow helps ensure your rack-mounted equipment is running at an optimal temperature.

The RKPNTL1U is backed by a 2-year StarTech.com warranty and free lifetime technical support.

Certifications, Reports and Compatibility

Applications

- Fill in unused gaps between equipment in server racks and cabinets
- Help guide the airflow along the back of your rack, instead of passing through your equipment

Features

- Create a tidy and professional look by covering unused rack space
- Hassle-free installation with tool-less design
- 1U panel that mounts to any standard 19 in. 2 or 4-post rack
- TAA compliant for GSA Schedule purchases
