

12in SATA to Right Angle SATA Serial ATA Cable

Productcode: SATA12RA1

The SATA12RA1 Right Angle (90-degree) SATA Cable features a standard (straight) SATA receptacle as well as a right-angled SATA receptacle, providing a simple 12-inch connection to a Serial ATA drive, with full SATA 3.0 bandwidth support of up to 6Gbps when used with SATA 3.0 compliant drives.

The right-angled SATA connection enables you to plug in your Serial ATA hard drive in hard to reach areas or tight spaces, while the low profile and flexible design of the cable improves airflow and reduces clutter in your computer case, helping to keep the case clean and cool.

Constructed of only top quality materials and designed for optimum performance and reliability this 12" SATA cable is backed by our lifetime warranty.

As an alternative, StarTech.com also offers an 12in Left Angle SATA cable (SATA12LA1), which provides the same simple installation as this left angled SATA cable, but allows the cable to connected to the SATA drive from the opposite direction.
