

Dual 2.5in to Single 3.5in SATA Hard Drive Adapter

Product ID: SATA35252X

This SATA HDD Adapter allows one or two 2.5in SATA (SATA, SATA II, SATA III) hard drives (HDD) or solid state drives (SSD) to be installed into a single 3.5in drive bay and connected to the host computer in place of a 3.5in SATA hard drive.

Simply mount the 2.5in SATA hard drives to the adapter board, then install the adapter in the computer as though it were a single drive.

To power the installed drives, the hard drive adapter includes an LP4 to dual SATA power 'Y' cable that lets you connect both drives to one of the computer power supply LP4 power connections. Then, it's as easy as connecting each of the drives to the motherboard SATA data connectors.

Certifications, Reports and Compatibility

Applications

- Use spare 2.5" drives to expand on a desktop's storage capacity
- Add additional hard drives to a system for RAID applications where physical space is limited

Features

- Unique mounting design for dual 2.5in hard drives
 - Includes mounting screws and LP4 to SATA power splitter cable
-

Environmental

Warranty	Lifetime
Operating Temperature	0C to 60C (32F to 140F)
Humidity	Max 95% RH

Physical Characteristics

Color	Green
Product Length	4.3 in [10.8 cm]
Product Width	4.0 in [10.2 cm]
Product Height	0.4 in [11 mm]
Weight of Product	2.5 oz [70 g]

Packaging Information

Package Length	6.8 in [17.3 cm]
Package Width	1.1 in [28 mm]
Package Height	5.4 in [13.7 cm]
Shipping (Package) Weight	4.2 oz [120 g]

What's in the Box

Included in Package	2.5" to 3.5" Adapter
	Screw Kit
	Power Cable
	Instruction Manual
