

Charge-and-Sync Cabinet for iPad and Other Tablets

Product ID: ST10CSU2A

Managing and deploying a fleet of tablets is a typical need in many educational, business, and sales environments. Unlike some tablet charging stations, this cabinet charges and updates up to ten tablets while also storing your devices securely.

This cabinet is compatible with nearly all mobile devices, such as:

- Apple iPad, iPad Air, and iPad mini
- Amazon Kindle
- Samsung Galaxy, Galaxy Tab
- Google Nexus 9
- Most iOS and Android devices

Keeping your mobile devices charged and up to date isn't easy, especially if you're managing them individually. This handy cabinet helps you streamline the process by simultaneously charging up to ten tablets while syncing them with a computer.

The cabinet is perfect for K-12 classrooms, libraries, and businesses because it helps minimize disruptions to the normal routine of daily users.

You can neatly store the devices even when they're in their protective cases, and the cabinet offers adjustable shelves with integrated cable management grooves.

Your expensive mobile devices need a secure storage place. The charge-and-sync cabinet features a lockable metal housing that keeps your devices safe, and can easily be secured to a desk for added peace of mind.

You can stack several cabinets vertically, too, to store and protect larger fleets of devices.

Whether you're securing a fleet of tablets in a school classroom or in a large organization, there's no worry that your

devices will become damaged or stolen when not in use.

At the push of a button you can switch to fast-charge mode, and the USB ports become Dedicated Charge Ports (DCP) delivering up to 2.4A to your connected devices. Plus, the cabinet charges Apple devices and supports USB Battery Charging Specification Rev. 1.2.

You can quickly prepare your mobile devices for use, which is perfect for restaurants, hotels, hospitals, retail sales, and other mixed environments.

The ST10CSU2A is backed by a StarTech.com 2-year warranty and free lifetime technical support.

Certifications, Reports and Compatibility

Applications

- Integrate as a learning and productivity tool in education and business settings
- Deploy a fleet of tablets in an IT department, or to traveling sales professionals
- Keep all your devices stored, secured, and out of harm's way when not in use

Features

- Store and secure up to 10 tablets, while providing simultaneous charge and sync functionality
- Lockable metal housing to keep devices safe, with a stackable design for expansion to multiple cabinets
- Fast-charge your devices using dedicated charge mode - supports Apple device charging and USB Battery Charging Specification Rev. 1.2
- Adjustable shelves with cable grooves fits tablets even when they're housed in their protective cases
- Built-in cable lock mechanism or included desk-mount bracket easily secures the cabinet to tables
- Overcurrent and short circuit protection
- Mesh door slides into cabinet for easier access
- Integrated handles, LEDs, and cooling fan

Hardware

Warranty	2 Years
Ports	10
Interface	USB 2.0

Bus Type	USB 2.0
Industry Standards	USB Battery Charging Specification Rev. 1.2 USB 3.0 - Backward compatible with USB 2.0 and 1.1
Chipset ID	Microchip - UCS-1002-1

Performance

Maximum Data Transfer Rate	480 Mbps
Type and Rate	USB 2.0 - 480 Mbit/s
General Specifications	Storage Capacity: 10/8/6 tablet devices (adjustable trays) - Apple iPad and other tablets with screen sizes of ~ <10"

Connector(s)

Connector Type(s)	USB Type-A (4 pin) USB 2.0 USB B (4 pin)
-------------------	---

Software

OS Compatibility	OS Independent; No additional drivers or software required
------------------	--

Special Notes / Requirements

System and Cable Requirements	USB-enabled host computer with an available USB port (for syncing purposes)
Note	For first-time connections, connect tablets directly to the host computer prior to connecting tablets to the cabinet 2.4A output to each USB port can be achieved in some but not all situations. Output amperage is dependent on the battery charge level of your connected devices

Indicators

LED Indicators	Connection / Charging / Syncing
----------------	---------------------------------

Power

Power Source	Standard 120V Power Cords
Input Voltage	110 ~ 120 AC
Input Current	3 A
Output Voltage	5 DC

Output Current	2.4 A (to each USB port)
Center Tip Polarity	Not Applicable
Power Consumption (In Watts)	12

Environmental

Operating Temperature	0C to 40C (32F to 104F)
Storage Temperature	-20C to 60C (-4F to 140F)
Humidity	10% ~ 80% RH

Physical Characteristics

Color	Black & Red
Material	Steel and Plastic
Product Length	13.8 in [35.0 cm]
Product Width	15.7 in [40.0 cm]
Product Height	16.9 in [43.0 cm]
Weight of Product	33.0 lb [14.9 kg]

Packaging Information

Package Length	20.1 in [51.0 cm]
Package Width	18.5 in [47.0 cm]
Package Height	21.9 in [55.5 cm]
Shipping (Package) Weight	38.5 lb [17.4 kg]

What's in the Box

Included in Package	Charge & Sync Cabinet
	USB A – B Cable (4ft)
	Keys
	Desk Mount Bracket (w/ Screws)
	Stacking Screws

Power Cord - North American (6ft)
