

HDMI over IP Extender - 1080p 60Hz HDMI Video over Ethernet/LAN Extender through Network Switch - Transmitter/Receiver Kit - up to 490ft (150m) over Cat5e/Cat6 Cable

Product ID: ST12MHDLNV

The HDMI Over IP Extender kit lets you extend an HDMI signal over your network or network cabling.

For smaller-scale applications, the HDMI video extender over Cat6 kit can be used as a point-to-point video extender up to 492 feet (150 meters). The 1080p HDMI extender units can even cascade the same signal to multiple receivers.

The HDMI Balun kit includes optional mounting hardware for a tidy installation. Ideal for corporate applications, the extender supports 1080p video resolutions and stereo audio. The HDMI extender over LAN uses standard Cat5e or Cat6 Ethernet cables with RJ45 connectors, it eliminates both the expense and hassle of running specialized cables. The local unit also features an HDMI output to avoid the need for an additional HDMI splitter.
