

Thunderbolt 3 to Dual HDMI 2.0 Adapter - 4K 60Hz - Thunderbolt 3 Certified - Dual Monitor HDMI Video Converter Adapter - Mac & Windows compatible - Dual 4K Display HDMI

**Product ID:** TB32HD24K60

This high-performance Thunderbolt 3 adapter lets you add two 4K 60Hz HDMI monitors to your Windows or Mac computer through a single Thunderbolt 3 port.

The Thunderbolt video adapter is compatible with computer systems that support Thunderbolt 3, such as models of MacBook Pro, Dell Precision and Dell XPS. Thunderbolt 3 is a protocol that uses the USB-C connector, but your computer system must support Thunderbolt 3 in order for the adapter to function as expected. If you connect the adapter to a USB-C port that does not support Thunderbolt 3, the adapter will not function.

With an unprecedented 40Gbps of throughput, Thunderbolt 3 enables you to achieve the previously impossible feat of using a single port on your laptop to output dual 4K resolution at 60Hz to two independent displays. This performance lets you run the most resource-demanding applications imaginable. You can output independent content to each display at resolutions of up to 4096 x 2160p (60Hz), which is perfect for editing 4K video or performing other Ultra HD tasks such as creating CAD drawings or reviewing medical imagery.

Functioning as an external 2-port graphics adapter with audio support, this is a compact and convenient alternative to a laptop dock when you don't need full docking capability.

With two UHD 4K displays, you can work more efficiently from your laptop, so you can accomplish more in the same amount of time. With each display delivering 4K performance, you can have four times the screen space compared to 1080p. Creative professionals can be more productive with the freedom to edit 4K video on one display while previewing raw video playback on the second 4K display.

This adapter helps to keep your system running at peak performance. Unlike USB external video solutions, Thunderbolt 3 lets you run Ultra HD 4K resolution at 60Hz on both displays without draining system resources.

Because it's backward compatible with your high-definition 1080p displays, this is a great accessory for home, office or other desktop workspace applications.

The TB32HD24K60 is backed by a 2-year StarTech.com warranty and free lifetime technical support.

## Certifications, Reports and Compatibility

## Applications

- Connect your computer to two 4K monitors
- Design high-resolution, graphic-intensive content, such as CAD drawings and Photoshop graphic images
- Create and edit 4K video while using resource intensive software
- Multitask by previewing your raw output content on a second 4K display
- Connect to different systems with 4K or 1080p displays for hot desking in BYOD office applications
- Use one screen for referencing data such as websites, while composing 4K content on your other screen
- Span a spreadsheet or worksheet across multiple displays to avoid side-scrolling
- Access panoramic views that are built into software applications, while viewing helpful tutorial content on your laptop monitor
- Connect your MacBook Pro, Dell XPS or Dell Precision to two external DP monitors

## Features

- **HIGH PERFORMANCE THUNDERBOLT 3 CERTIFIED VIDEO ADAPTER:** Driverless setup for plug-and-play installation; Thunderbolt 3 (40 Gbps); Bus powered; Dual 4K 60Hz HDMI outputs; HDMI 2.0 with 7.1ch Audio, HDCP 2.2/1.4, High Frame Rates, Uncompressed Dual 4K 60Hz
- **DUAL 4K 60Hz SUPPORT:** Dual 4K (4096x2160) 60Hz video output utilizing direct GPU performance with no software or compression; Supports resolutions up to 4K 60Hz on both screens and is backward compatible with 1440p & 1080p
- **COMPATIBILITY:** Compatible with Windows, macOS & Ubuntu; Works with all Thunderbolt 3/4 laptops; Extended dual displays on Apple M1/M2/M3 Max & Pro MacBooks; Single Display on Apple M1/M2/M3 MacBooks & iPad Pro M1 and later

- **DISPLAY COMPATIBILITY:** Video converter tested w/ 4K (UHD) & 1080p (FHD) displays incl brands LG, Samsung, Sony, Dell, ASUS, ACER, BenQ; great for content creation, imaging, & labs w/ high-res monitors
- **EXTRA-LONG CABLE:** Attached 10in (25cm) cable provides long reach for easy setup and prevents adapter from dangling on the host connector; Ideal cable length to reduce port strain on 2-in-1 convertible laptops, or host laptops on riser stands

#### Hardware

Warranty	2 Years
Active or Passive Adapter	Active
AV Input	Thunderbolt 3 USB-C (24-pin) (40Gbps)
AV Output	HDMI
Audio	Yes

---

#### Performance

Maximum Data Transfer Rate	40 Gbps
Maximum Analog Resolutions	4K
Maximum Digital Resolutions	Dual monitor: 4K @ 60 Hz
Supported Resolutions	4096x2160
	3840x2160
	2560x1600
	1920x1200
	1920x1080
	1280x720

---

#### Connector(s)

Connector A	1 - Thunderbolt 3 USB-C (24-pin) (40Gbps)
Connector B	2 - HDMI (19 pin)

---

#### Software

OS Compatibility	Windows 8, 8.1, 10, 11
------------------	------------------------

macOS 10.12 - 10.15, 11.0, 12.0, 13.0, 14.0

---

**Special Notes / Requirements**

Note	The adapter will only function when connected to the Thunderbolt 3 port of your computer. If the port is a USB-C port that does not support Thunderbolt 3 the adapter will not function.
------	--

---

**Power**

Input Voltage	5V DC
Output Voltage	5 DC

---

**Physical Characteristics**

Color	Silver
Cable Length	11.2 in [284 mm]
Product Length	4.5 in [11.4 cm]
Product Width	2.4 in [6.0 cm]
Product Height	0.4 in [1.0 cm]
Weight of Product	3.6 oz [103.0 g]

---

**Packaging Information**

Package Quantity	1
Package Length	8.3 in [21.0 cm]
Package Width	5.7 in [14.6 cm]
Package Height	1.6 in [4.0 cm]
Shipping (Package) Weight	7.8 oz [222.0 g]

---

**What's in the Box**

Included in Package	1 - Thunderbolt 3 to dual HDMI adapter
