

USB to DVI Adapter – 1920x1200

Product ID: USB2DVIE3

The USB2DVIE3 USB DVI Video Adapter offers a perfect external multi-monitor solution, enabling you to add a high-resolution (up to 1920x1200) external DVI output to your desktop or laptop computer system using an available USB 2.0 port.

A cost-effective solution for systems that lack the outputs required for a multi-monitor setup, this high-performance USB to DVI adapter can be used to mirror your primary display and show the same image on both screens, or extend your desktop to double your workspace.

This small form factor USB video adapter can be used with up to 4 additional (5 total) USB2DVIE3 USB video adapters, creating multiple DVI connections to add additional displays quickly and easily - all without having to open the computer case to add extra video cards.

Backed by a StarTech.com 2-year warranty and free lifetime technical support.

Certifications, Reports and Compatibility

Applications

- Add a secondary display adapter and extend your desktop display without taking apart your computer to install a new video card
- Add multiple (up to five) monitors/projectors to your computer setup using one USB2DVIE3 device for each additional display
- View large or multiple spreadsheets that span multiple displays
- A compact, lightweight solution for traveling business associates using laptop PCs enabling connection to a secondary display

- Connect multiple monitors to a single computer to create engaging multimedia presentations
- Use the adapter to connect your PC to your television for showing family pictures and movies
- Increase productivity by running multiple applications on different screens, check your email on one display and work on a document in the other
- Great for researchers and writers offering the ability to have reference material on one display and a working document copy on the other
