Professional USB to DVI External Dual or Multi Monitor Video Adapter
Produkt ID: USB2DVIPRO

The USB2DVIPRO Professional USB DVI External Dual or Multi Monitor Video Adapter is the perfect solution for turning your workstation into a dual or multi-monitor environment using your USB ports - providing high quality dual display or multi-monitor capability for a variety of laptop or desktop applications.

With improved performance compared to our USB2DVI, this USB DVI-D display adapter is capable of running up to five additional displays from one computer simultaneously (using four USB2DVIPRO External Multi Monitor Video Adapters). The adapter connects to a host computer through a USB 2.0 port, acting as an external DVI-D video card to either extend or mirror the desktop shown on the existing display - without having to open the computer case.

USB2DVIPRO offers support for Microsoft Windows® (including Aero themes) and Mac OS X, and with support for resolutions up to 1920x1200 this device is ideal for larger displays / monitors.

Backed by a StarTech.com 2-year warranty and free lifetime technical support.

Certifikat, rapporter och kompatibilitet

Användning

• Can't install a new or additional video card? No problem, the USB2DVIPRO uses USB ports to add DVI connectivity to your PC or Mac

• Add multiple (up to five) monitors / projectors to your computer setup using one USB2DVIPRO device for each additional display

• View large or multiple spreadsheets across multiple displays

• Increase productivity by running multiple applications on different screens; check your email on one display while editing a document on the other

• Use the adapter to connect your PC to your television for showing family pictures and movies

• Connect multiple monitors to a single computer to create engaging multimedia presentations

• Great for researchers and writers offering the ability to have reference material on one display and a working document copy on the other

Funktioner

• Support for Aero themes in Windows®

• Works with MAC OS X

• Optimal performance at 1920x1200 and ideal for use with 24" to 26" monitors or smaller

• Connect up to five adapters to one PC for a true extended desktop experience

• USB Powered - No external power adapter required

• Quick and easy to install
